(b) "Archaeological fieldwork" means actions undertaken for the purpose of recovering data about or from an archaeological site in order to evaluate and determine National Register eligibility; or to document through archaeological excavation the archaeological site prior to proposed alteration, damage or destruction.

(c) "Archaeological site" means the complex of associated physical remains and features contained in the ground that evidence past use or modification by people.

(d) "Area of potential effect" means the geographic area or areas within which an undertaking may directly or indirectly cause changes in character or use of historic resources, if any such properties exist.

(e) "Certified Local Government" means a local government that has been certified to meet Federal and State standards, as set forth in the "Florida Certified Local Government Guidelines" (Form HR3E03204-02) herein incorporated by reference, and can participate in the nationwide program of financial and technical assistance to preserve properties.

(f) "Completeness" means the inclusion in the report of archaeological and historical activities of all applicable sections of the prescribed content, but does not mean that said sections are sufficient in comprehensiveness of data or in quality of information provided.

(g) "Days" means calendar days.
